

**For inspiring and creative professionals
with a passion for cooperatives
focused on impact**

Agriterra is the world's leading not-for-profit agri-agency from-and-for agricultural cooperatives and farmer organisations. Our mission is to strengthen organised farmers in developing and emerging countries, given the importance of effectively organised farmers to sustainably address food security, economic development, climate adaptation and mitigation.

We were founded 25 years ago by Dutch farmer cooperatives and have over the years evolved into an organisation partnering and supporting farmer cooperatives and organisations worldwide. Agriterra assist them with advice and training through peer-to-peer support in combination with locally based experts. We apply a three-track approach: we make cooperatives bankable and create real farmer-led companies, we improve extension services to farmer members and we enhance farmer-government dialogues. Our advisory practice covers the full range of services on Management & Organisation, Financial Management, Governance, Business Development and Lobby & Advocacy.

Agriterra is organised with a head office in Arnhem, the Netherlands, and has a network of 12 country offices spread over Africa and Asia; employing approximate 170 staff members. We are financed and work via donor granted projects and programmes. These long-lasting strategic partnerships with a variety of donors are key for us in our day-to-day work.
